

CITIZENS ONLINE REPORTING

The Mount Dora Police Department is launching the Citizens Online Reporting System. Incidents such as theft, harassing phone calls and other crimes can be reported online, in minutes. Citizens can report via computer or smart phones and print a temporary copy of their report. The Citizens Online Reporting System is another major benefit to the community that will save time and effort in reporting crimes. This reporting option and use of technology is also one of the Mount Dora Police Department Priorities to further advance the communication between the department and citizens. More information is available through the City Website and the Mount Dora Police Facebook. <http://cityofmoundora.com/1370/Citizens-Online-Police-Reporting-System>
